## ASSISTANCE MINISTRY

Good Samaritan has received the Emergency Solutions Grant (ESG) for “COVID-19 Cares Fund” through Rocky Mountain Development Council. ESG is used for the Emergency Shelter, Rapid Re-Housing (RRH) that is designed to house those experiencing homelessness and pays for deposit and short-term rent (3 months) or medium termed rent (6 months), and for Homeless Prevention (HP) to keep people stabilized in their current location or move them to another more stable housing location. To date, together, we have helped over 190 people with emergency shelter, of which 33% have been housed and 19% self-resolved their situation. We strive to continue helping the struggling and give them hope, stability and the tools to be independent for a better tomorrow.
